ALBERTA ECONOMIC DEVELOPMENT & TRADE

NOVEMBER 1988

Alberta
ECONOMIC DEVELOPMENT
AND TRADE

Office of the Minister

407 Legislature Building, Edmonton, Alberta, Canada T5K 2B6 403/427-2134

Dear Reader:

Alberta's export performance improved significantly in 1987, with total exports reaching almost $12 billion -- a 13 per cent increase over 1986.

Alberta businesses export to and compete in over 140 countries. While the United States is Alberta's largest export market, accounting for almost 72 per cent of our 1987 exports, significant increases have occurred in other markets. Exports to Japan -- our second largest market -- were valued at $747 million, a 5 per cent rise over 1986. A 114 per cent rise in exports to the People's Republic of China placed that market as our third largest. A dramatic increase of over 300 per cent in exports to Mexico placed that country as Alberta's ninth largest market.

Alberta exports must compete in a continually changing global environment. In recent years, protectionist trade policies have grown in a number of countries. However, the shortcomings of these protectionist policies are increasingly being recognized. The trend is now toward achieving economic gain through freer international trade. Concerted efforts are under way to remove trade barriers and expand two-way trade. These initiatives are expected to enhance export opportunities for Alberta.

Clearly, exports will remain an important component of the continued diversification of Alberta's economy.

Larry R. Shaben

Larry R. Shaben
Minister

INTRODUCTION

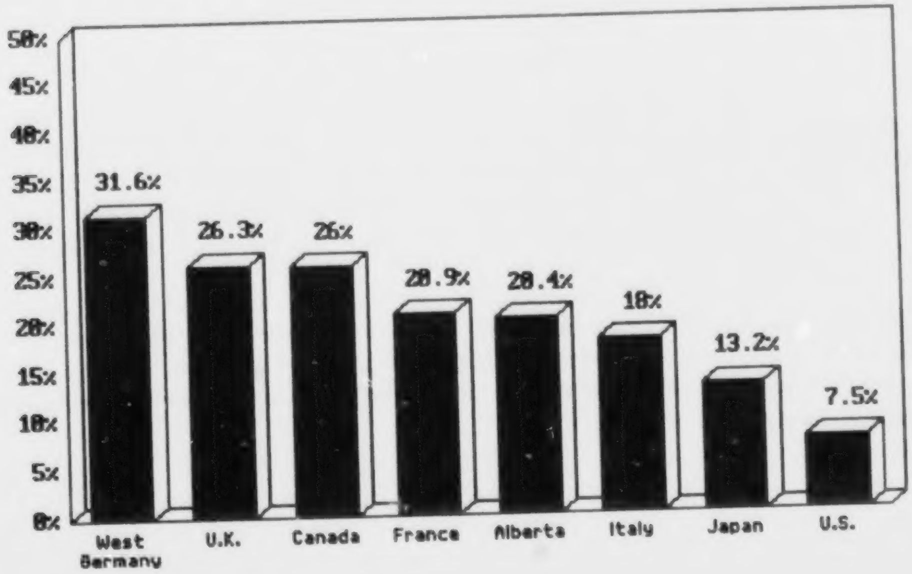
International trade is fundamental to the Alberta economy. Alberta's merchandise exports in 1987 increased to $11.97 billion, representing more than one-fifth of the province's gross domestic product (GDP).

This increase reflects growth of 13% from $10.59 billion the previous year. It shows the further diversification of Alberta's export markets and greater penetration of existing markets.

This publication -- designed to provide a convenient database on Alberta's international trade in commodities -- highlights the success of the province's 1987 export performance. Both export and import data for 1985, 1986 and 1987 are included.

Across Canada, exports accounted for 26 % of GDP, third only to West Germany and the United Kingdom among the seven major western economies. According to the General Agreement on Tariffs and Trade (GATT), the value of world merchandise exports increased by 15.5% to establish a record of $2,450 billion U.S.

Exports As A % Of GDP *



* 1987 exc. for Japan ('86)

SOURCES

Statistics Canada and Alberta Agriculture are the main sources for the data.

The term "exports" generally refers to domestic exports: goods which are grown, extracted or manufactured in Alberta or across Canada and then transported to other countries. The Agriculture data, however, includes some re-exports: imported goods that are subsequently exported in essentially the same condition.

ALBERTA EXPORTS BY COMMODITY

On a global basis, commodity prices increased by almost 30 per cent in terms of U.S. dollars in 1987. This significant increase can be attributed to depreciation of the U.S. dollar, strengthening of world economic activity over the year and lower-than-expected commodity supplies. In turn, this helped increase the value and quantity of Alberta exports.

Natural Resources

Alberta exports of natural resource products in 1987 increased in value from $6,445 billion in 1986 to $7.67 billion in 1987. The latest figures represent about 64% of Alberta's total exports. Natural resource products account for six of the Top 20 commodity exports.

According to the GATT, the average price for the bench-mark West Texas Intermediate Crude in 1987 was $19.17 U.S., up from an average of $15.05 the previous year. This increased value helped the export performance of Alberta natural resource products.

Alberta Exports of
Natural Resource Products for 1987
($ 000's)

Crude Petroleum	3,662,978
Natural Gas	2,306,645
Sulphur	832,115
Petroleum and Coal Products	542,546
Coal and Other Crude Bituminus Substances	370,968
Total	7,675 252

Crude petroleum remained Alberta's largest export commodity, accounting for 30% of the total. The value of crude petroleum exports increased to $3.6 billion from $2.9 billion. A 5.6% increase in oil export volumes to the U.S. occurred partly because of pipeline network expansion. Virtually all of Alberta's petroleum exports go to the U.S.

Natural gas, the second most important commodity with exports valued at over $2.3 billion, constituted about one-fifth of Alberta's total exports in 1987. In dollar terms, natural gas exports increased by 1.3% from 1986. But in terms of volume, exports increased by 33% as Alberta further penetrated the U.S. Midwest and California gas markets. All of Alberta's natural gas exports go to the U.S.

With exports valued at $832 million, sulphur was the third largest commodity export. Since it is primarily used as a fertilizer ingredient, exports tend to be closely linked with demand for agricultural commodities. Morocco is by far our largest export market for sulphur with purchases of $179 million in 1987. Morocco is followed by Brazil and the U.S.

The value of coal sales increased by 13.7% from 1986 to reach $371 million in 1987. Japan remains Alberta's largest market for coal, accounting for $270 million in exports. South Korea is the second-largest with $67 million.

Agriculture

Agriculture increased its share of the market with exports rising by 9.8% in 1987 to $1.83 billion. Six of Alberta's Top 20 commodity exports were agricultural products.

Wheat exports -- Alberta's fourth-largest export commodity -- totalled $677 million, an increase of 15% from the previous year. Wheat sales to China almost doubled from 1986. China, the largest export market for this commodity, purchased more than $150.5 million worth of wheat. This represents 22 % of the province's total wheat exports. The U.S.S.R. remains the second largest export market for Alberta wheat despite increasing competition by both the European Community and the U.S.

Exports of canola -- Alberta 12th largest export commodity -- increased by 16.2% in 1987 to $192 million. Exports of oilseed cake and meal rose by 85% to $ 96.5 million.

Fresh, chilled and frozen pork ranked 19th among Alberta's top export commodities. Exports were valued at $77.5 million, an increase of almost 8% over 1986. The U.S. and Japan remained Alberta's largest markets for pork.

Forestry

Alberta exports of forest products were valued at $839.7 million in 1987. Wood accounted for $531 million or 63% of these exports. This includes $177.6 million in softwood lumber exports and $51.8 million in panel products. Bleached kraft paper grade softwood pulp and other pulp exports were valued at $293 million, representing Alberta's seventh largest export.

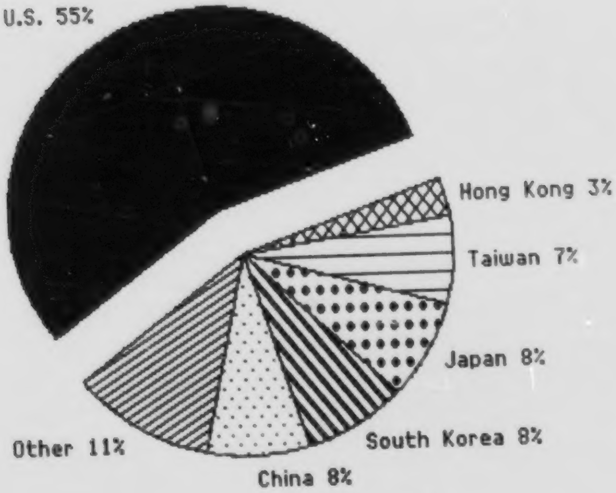
Pulp and Forestry Products
Exports for 1987
($ 000's)

Wood	520,883
Pulp	293,238
Other	15,573
Total	839,693

Petrochemicals

Petrochemical exports were valued at more than $1.2 billion in 1987. Petrochemical exports are growing and represent six of Alberta's Top 20 commodity exports. The U.S. constituted the province's major export market with purchases of $687 million or 55 per cent of the total. Asia/Pacific Rim countries, most significantly China, imported approximately $506 million, about 40% of the total. Exports of polyethylene resin, Alberta's sixth largest export commodity in 1987, were valued at $319 million. Exports of vinyl chloride and styrene monomer, Alberta's eighth largest commodity export, was valued at $262 million.

Alberta's Major Petrochemical Export Markets 1987



ALBERTA EXPORTS BY COUNTRY

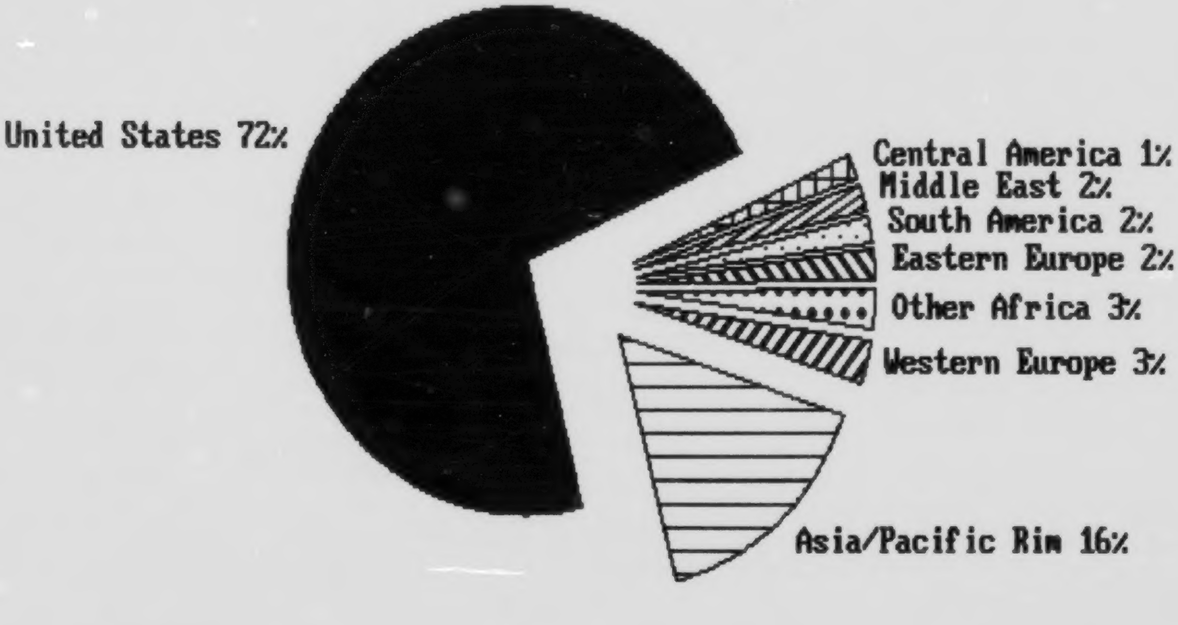
United States

Alberta exported to over 140 countries in 1987, up from 132 the previous year. The U.S. and Japan continue to be Alberta's two leading export markets. Three of the top four major exports markets are Asia/Pacific Rim countries.

Alberta continues to diversify its export markets. In 1974, for example, more than 95% of Alberta exports went to the U.S. As recently as 1980, the U.S. purchased more than 89% of Alberta exports.

The U.S. now takes 72% of Alberta exports with a value of $8.6 billion. While oil and gas remain the two largest exports, a number of other commodities showed significant improvement in 1987. With a value of more than $686.8 million, petrochemicals generally exhibited the greatest growth among exports to the United States. Vinyl chloride and styrene monomer exports, for example, increased by 122% from 1986 to 1987. Ethylene glycol exports climbed by 61% and polyethylene resins by 40.6%.

Alberta Exports to World Regions



Exports of forest products to the U.S. also improved significantly in 1987. Despite the 15% export surcharge on softwood lumber exports to the U.S., Alberta exports of softwood lumber increased by 47% to $170 million in 1987. Pulp exports -- the third largest export commodity to the U.S. -- climbed by about 30% to $273 million.

Most of Alberta's exports to the U.S. are shipped to the north-western and north-central states such as Washington, Illinois and Minnesota. Yet exports are expanding to other regions. For example, exports to Alabama and Mississippi increased by 76% from 1986. Exports to Illinois/Indiana/Wisconsin rose by 67%, making it the second largest export region for Alberta in the U.S. The Alaska/Oregon/Washington region remains the largest U.S. export market for Alberta.

Alberta Exports to US Regions
($ 000,000's)

	1986	%	1987	%

Total	7,579	100	8,568	100

Asia/Pacific Rim

Asia/Pacific Rim countries represent the second largest region for Alberta exports. In 1987, they accounted for 16.8% of total Alberta exports, up from 13.9% in 1986. Alberta exports to the region increased by 28.7% to approximately $1.9 billion.

Japan

Japan is by far the largest market for Alberta among Asia/Pacific Rim countries with 1987 exports valued at $746.6 million. Coal remains the leader with export sales increasing to $269 million, a rise of 10.4% from the previous year. A number of agricultural products also made substantial increases. Ethylene dichloride gained by far the largest percentage increase among Alberta's exports to Japan: a 200% climb from 1986 on sales of $7.6 million.

China

China has become one of the brightest stars among the Asia/Pacific Rim countries for Alberta exports. Exports to China increased by more than 114% in 1987. This moved China from Alberta's sixth largest export market in 1986 to the third largest. Exports of petrochemicals and wheat are largely responsible for this impressive growth: exports of vinyl acetate and acetic acid increased by more than 696%, polyethylene resins by more than 470% and wheat by 91%.

South Korea

Alberta exports to South Korea increased by 45% to $293 million in 1987. Coal exports were up by 363% at $66.8 million, vinyl chloride and styrene monomer up by 75% to $46.3 million, and methanol, ethylene glycol and pentaerythritol up by 25.5% to just under $32 million. Exports of wheat, rawhide and skins also increased substantially.

Hong Kong

Alberta exports to Hong Kong increased by 89% to $53 million in 1987. This made Hong Kong the 16th top export market for Alberta commodities. As with the other Asia/Pacific Rim countries, agricultural products were a driving force in this market expansion.

Alberta Exports to the Asia/Pacific Rim Countries

Western Europe

Exports to Western Europe increased by 20.7% to a value of $352 million. Of this, 89% went to the European Community. The Netherlands remained Alberta's largest market in Western Europe with exports valued at $81.4 million. A strong export performance was also achieved in Belgium, Luxembourg, Italy and West Germany.

Alberta Exports to Western Europe
($ 000's)

	1985	1986	1987

Total Western Europe	272,584	291,803	352,089

Eastern Europe

Exports to Eastern Europe in 1987 were valued at $224 million. While Alberta's export performance in Eastern Europe was not as impressive as in other regions, there were a few notable exceptions. Exports to Yugoslavia -- almost entirely sulphur -- increased by 122% to a value of $3.4 million. Exports to Hungary also increased dramatically from less than $250,000 in 1986 to $2.9 million in 1987.

The Middle East and Africa

The Middle East was the second fastest-growing export region for Alberta in 1987. Exports increased by more than 43% to $199 million. Saudi Arabia was Alberta's largest single market in this area with exports -- consisting almost entirely of barley -- up 87% to $67.7 million. Israel was the second largest Middle East market, accounting for more than $36 million in Alberta exports. Exports to Iran showed the largest increase in the region, rising from $1.9 million in 1986 to $31.6 million in 1987. This includes wheat exports of $22.4 million.

Exports to other African nations totalled $309 million in 1987, making this the fourth largest export region for Alberta. Morocco was by far the biggest market in this region, accounting for more than $180.5 million in exports, mostly in sulphur. Tunisia, the second largest market in this region, accounted for $58.5 million in Alberta exports, again mostly sulphur.

South America

Alberta exports to South America declined slightly in 1987 to just under $205 million. Most of the loss came in Brazil. On the other hand, Alberta posted significant increases in exports to Venezuela, Columbia, Ecuador, and Uruguay. While Alberta did not export barley to either Columbia or Ecuador in 1985 or 1986, this became the top selling item for the province in those two countries in 1987. Exports of wheat also increased significantly in Venezuela and Uruguay.

Alberta Exports to South America
($ 000's)

	1985	1986	1987

Guyana	3	51	234
Paraguay	47	5	21
Total South America	222,843	214,679	204,700

Central America

Although relatively small in absolute value, Alberta's exports to Central America and the Antilles grew the fastest of all the regions from 1986 to 1987. The increase of 78.6% can be credited almost entirely to Mexico. Sulphur exports to Mexico increased from $647,000 in 1986 to $56.2 million in 1987. Exports of canola seeds were just as impressive, rising from $11.1 million in 1986 to $35.5 million in 1987.

GLOSSARY

bbl.	volume in barrels (for petroleum, thirty-five gallons or forty-two United States gallons)
cwt.	weight in hundred weights of 100 lb. each
cwtad.	weight in hundred weights of 100 lb. each; air dried
doz.	number of dozens
doz.pr.	number of pairs in dozens
gal.	volume in Canadian gallons (one United States gallon = 0.83 Canadian gallon)
lb.	weight in pounds
mbf.	volume in thousand board feet
mcf.	volume in thousand cubic feet
mt.	metric ton (tonnes) of 1,000 kg. or 2204.6 lbs. (one metric ton = 1.1 short tons)
nes.	not elsewhere specified
pr.	number of pairs
p.gal.	volume of alcoholic content in terms of Canadian gallons of the strength of proof (one United States p.gallon = 0.74 Canadian p.gallon)
sq.ft.	volume in square feet of 1/4" thickness, other thickness to be converted to the equivalent of 1/4" thickness (e.g. 10,000 sq.ft. of 1/8" plywood = 5,000 sq.ft. of 1/4" equivalent)
ton.	weight in short tons of 2,000 lb. (one short ton = 0.91 metric tons) (one short ton = 0.89 long tons)
